

**XE ĐÔNG LẠNH
CÔNG TY TNHH XE CHUYÊN DÙNG AN KHANG**

***Pacific Isotherms*
ISO 9001:2008
PROFILE IN BRIEF**

Who we are ?

- PACIFIC ISOTHERMS Ltd, the truck body manufacturer in Vietnam, a production unit of high quality insulated and refrigerated box in FRP (Fiberglass Reinforced Plastic), PU insulation core, vacuuming process.
- Our customer are: Food processing, producers of other products under temperature-control, refrigerated transporters, truck body-builder . . .
- We are also supplying in CKD,IKD kits to body-builder including genuine assembling process support

Our Vision

- To be the provider of high quality products and innovatory solutions to support customers in adapting the demand of food-safety delivery and energy-saving

Our Mission

- Supplying high and stabilized quality products,
- Provider of choice for specific demand from each customer
- To continue upgrading our high technology engineer team.

Our Core Value

Righteous, Accountable and Forward together

About us in few words

- Established in 2006, Pacific Isotherms is private company which gathers team of engineers with more than 10 year experiences in building bodywork and especially in refrigerated truck body.
- Our process is using the latest European Technology of vacuuming in manufacturing sandwich composite insulated panels.
- Our products vary from refrigerated truck body, container, Insulation mobile boxes, cool room in predesigned or customized construction.

Certificate and Registration

- Quality Management ISO 9001:2008 registration certified by The British Standards Institution (BSI) in 2011

- Trade Mark registration certified by National Office of INTELLECTUAL PROPERTY OF VIETNAM in 2008

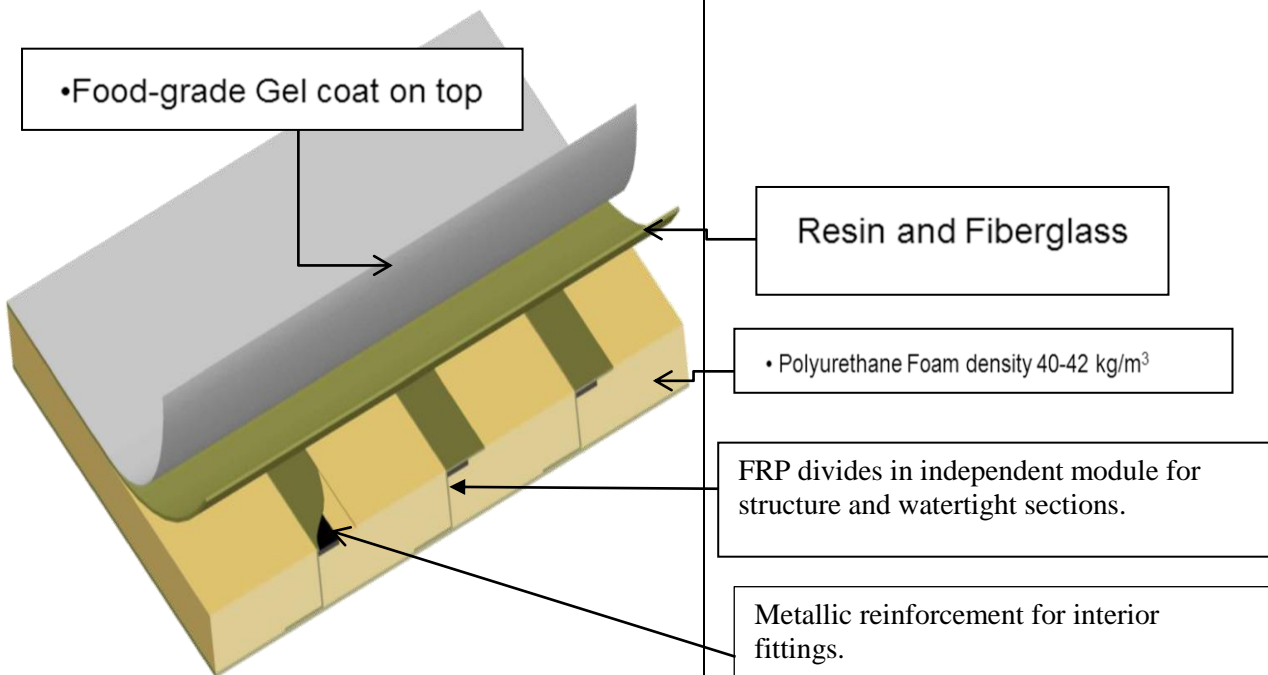

- **Automatic Chemical Spraying system to control the regular quantity and quality of polyester resin for panels**

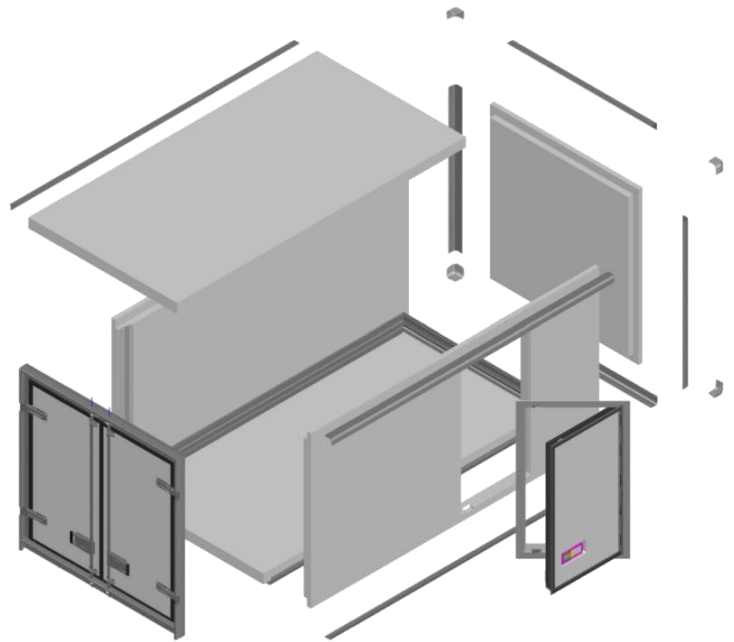

Panel structure

- **Conformation of panels is fully enclosed and protected by FRP, it makes high structure rigidity, water proof, insulation coefficient , life time of product**

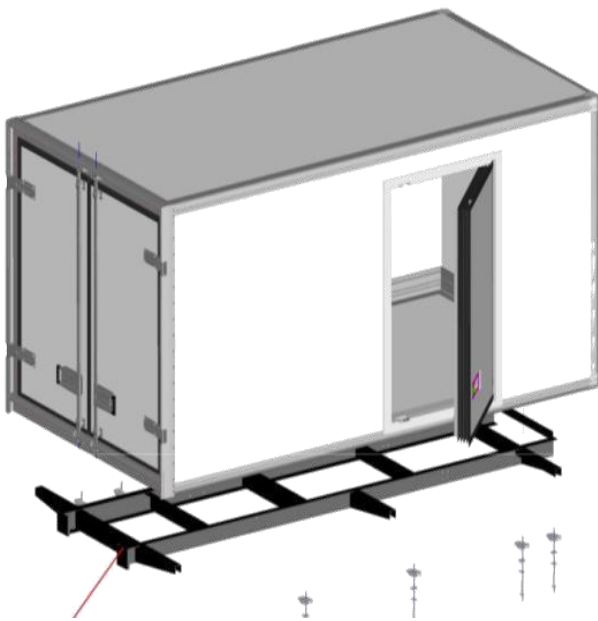

Assembling

- Special glue to join mono-bloc panels in to the box, minimize quantity of screws or rivets.
- Easy to build up but the result is high performance of resistance, no water leaking, no thermo bridge, high insulated capacity body

- Easy process for mounting on chassis-cab by clamps to the “Self-supporting” floor

Product Range

- We have been providing full range of sizes to meet with our clients’ demand.

500 kgs payload

3.5 Tons payload

10 Tons payload

1 Ton payload

6 Tons payload

Semi trailer

Accessories and options

▪ **Side door**

▪ **Meat hanging**

▪ **Movable partition**

Corrugated floor

Plastic pallet

PVC Curtain

Custom-built

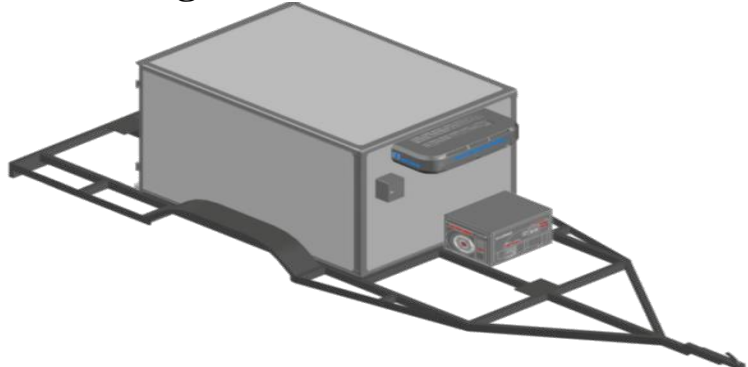

- Chair for the Refri. unit

- Taught liner

- Catering service

- Mobile Cold room
